## Investment Pilots

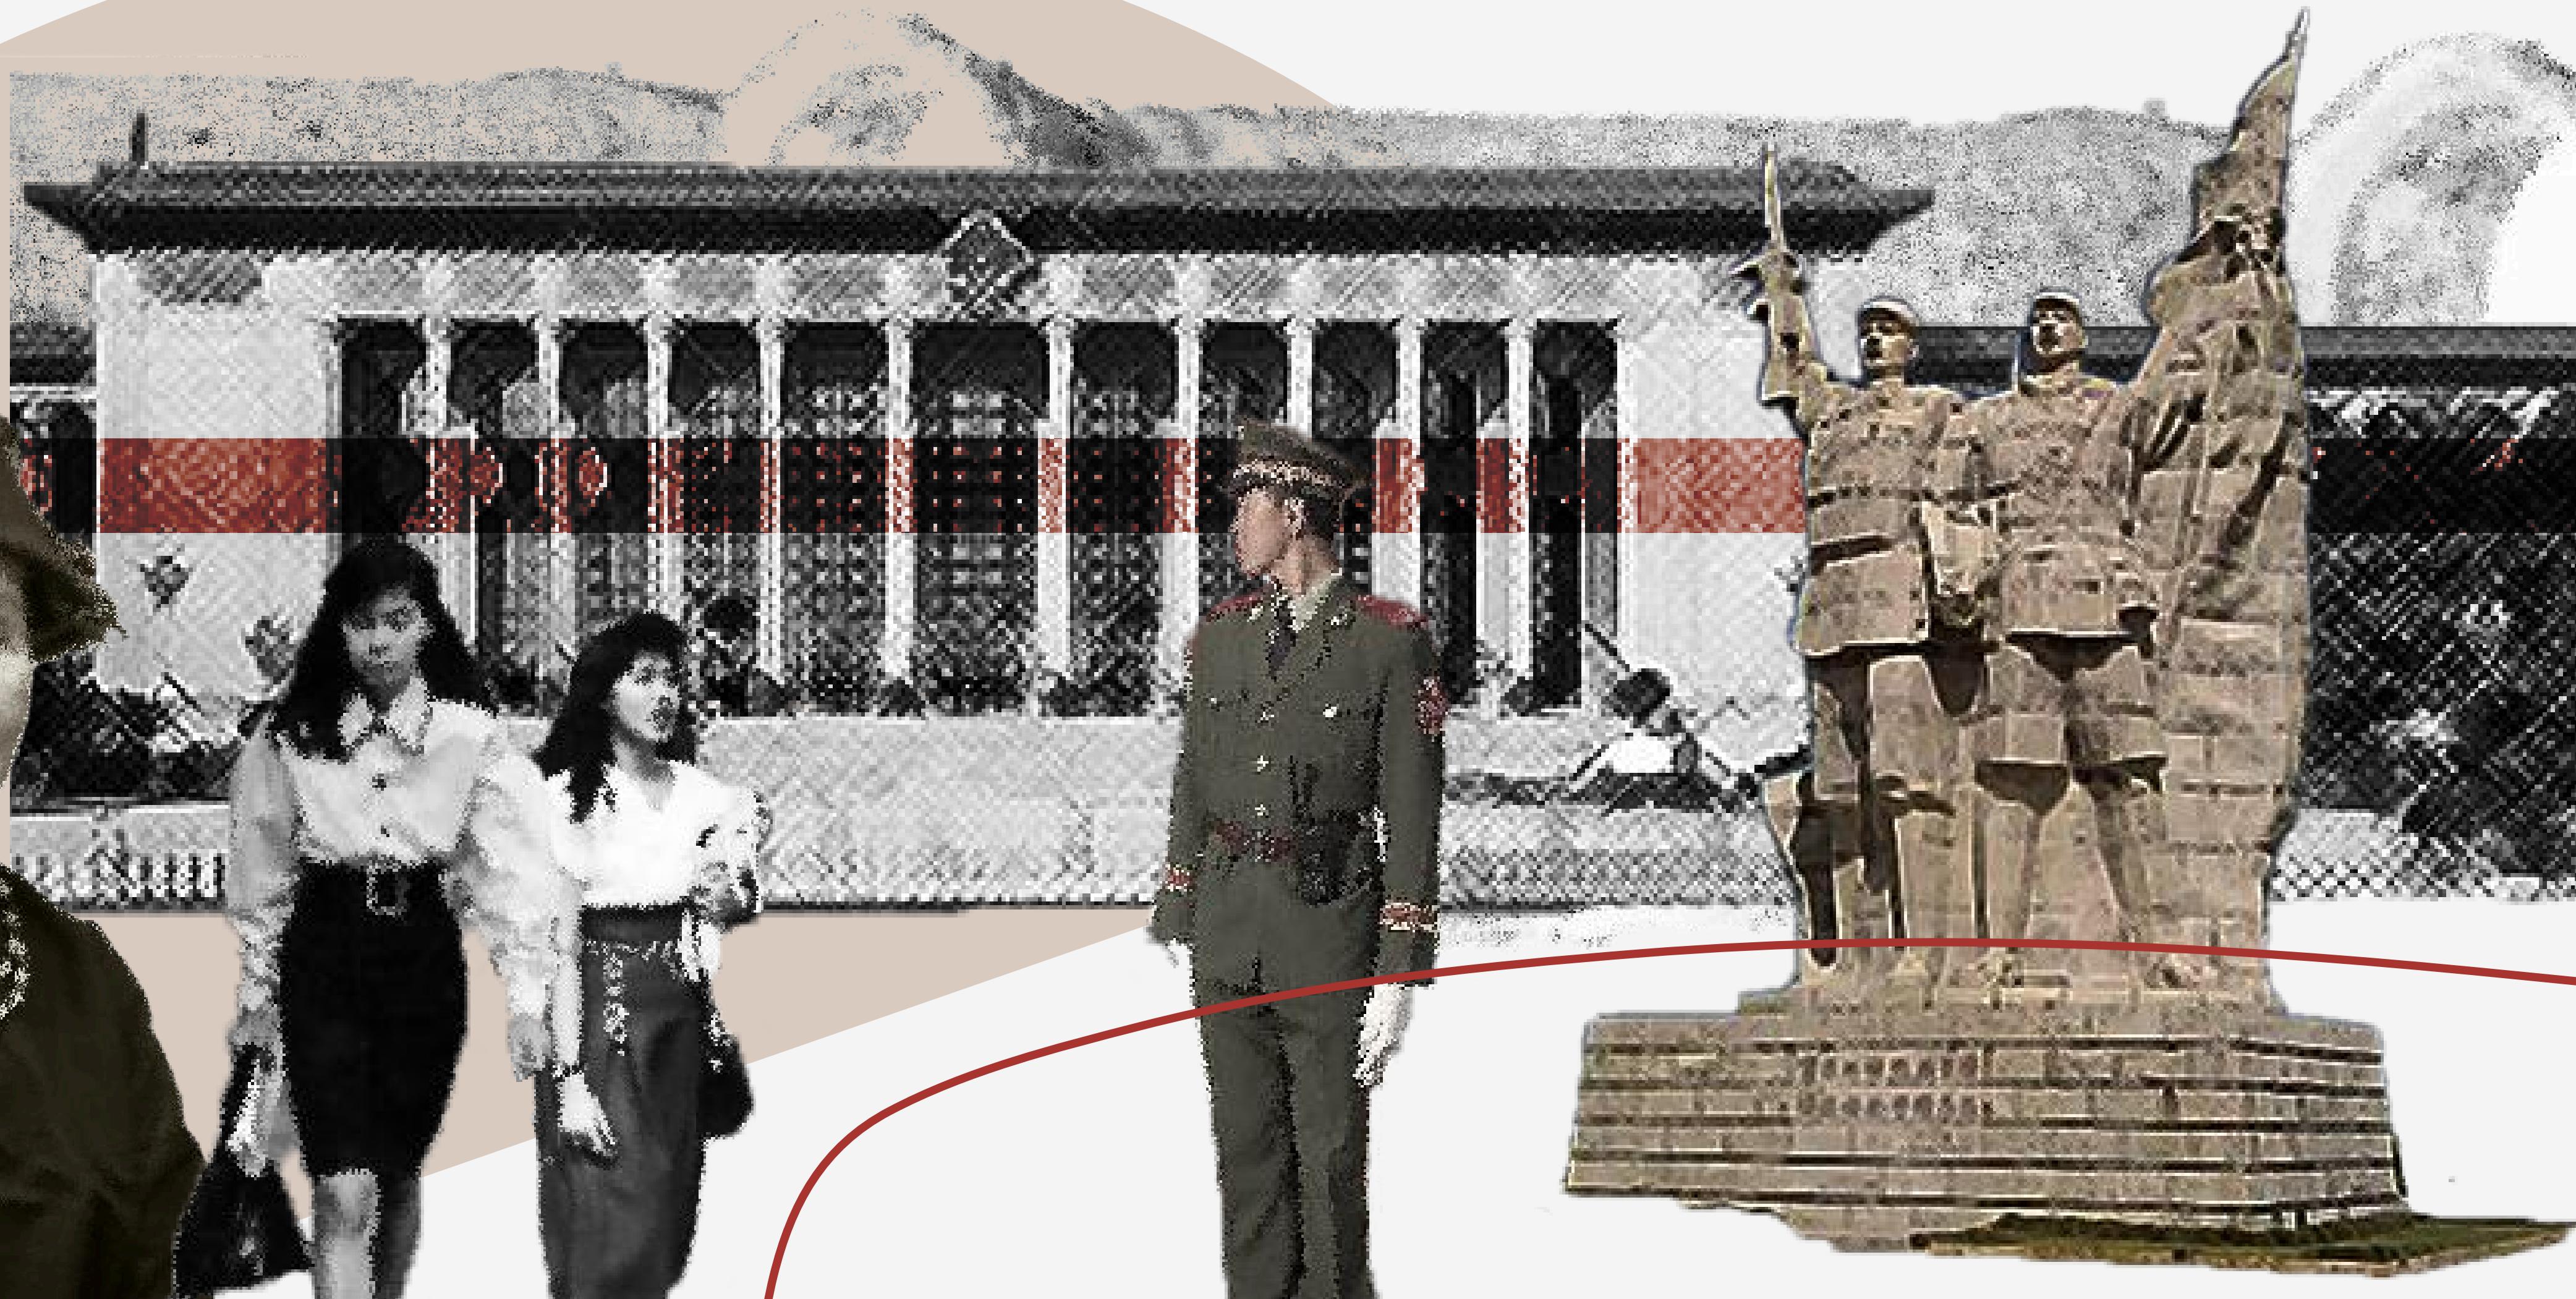

The policy has been implemented in Yangpu Port, Science and Technology City, Aerospace City, Software Community, etc.

# BACKGROUND

The Chinese government enacted a new policy decision in 2020 to make Hainan Island a free trade port, a move that triggered alarm and deduction about the geopolitical situation. Many see this as a project of poverty alleviation and construction, unaware of the undercurrent of a series of regional conspiracies for digital sovereignty.

## HAINAN ISLAND CUSTOMS CLOSURE POLICY

2021

## Development

R During the Cold War, rubber production was vigorously developed.

P Attempts to bring in foreign investment as a special economic zone after economic reforms, but the government lacks credibility.

T After consolidation in the wake of the real estate bubble, the island has begun to vigorously develop its tourism industry.

D In the information age, in order to accelerate the layout of the Southeast Asian market, the island as the forefront plan to test the free trade port.
